

OHMSETT to Attend the RETECH 2011 Energy Technology Conference & Exhibition

LEONARDO, NJ – OHMSETT - The National Oil Spill Response Research & Renewable Energy Test Facility will be an exhibitor at RETECH 2011 Energy Technology Conference & Exhibition September 20-22, 2011 at the Walter E. Washington Convention Center in Washington, D.C.

In its third year, RETECH is the all renewable energy event and will build on its tradition of assembling a program of leaders representing the renewable energy technology industry, the power generation industry, as well as local, state, federal and foreign government agencies. During the Keynote sessions, you will hear about the vital issues impacting renewable energy policy. In addition, you will be able to see the latest technology solutions from more than 150 suppliers and meet with the leaders who are shaping the renewables market.

Stop by the Ohmsett Booth 625 to learn how you can test your equipment in a simulated marine environment with waves. Only at Ohmsett's tow/wave tank will you find a full-scale facility that can give you the most accurate and reliable test results. For more detailed information, visit our web site at <http://ohmsett.com/energy.html>.

Visit the [RETECH 2011](#) website for complete conference details, speakers, exhibitors and event schedules. If you are not already registered to attend and would like a free VIP pass to the exhibit hall, Ohmsett would be more than happy to provide you with one. Send an e-mail to jdelgado@marinc.com and ask for the free e-ticket to the RETECH 2011 conference.

###

Ohmsett - The National Oil Spill Response Research & Renewable Energy Test Facility is one of the largest outdoor saltwater wave/tow tanks in North America and is designed to evaluate the performance of full-scale and meso-scale equipment under realistic but safe environmental conditions. The facility, managed by BOEMRE and operated by Mar, Incorporated, is located at the Naval Weapons Station Earle Waterfront in Leonardo, New Jersey (about one hour drive south of New York City).
