

Ohmsett staff to attend Interspill 2015 Conference in Amsterdam, the Netherlands

LEONARDO, NJ. January 2014: Ohmsett – The National Oil Spill Response Research & Renewable Energy Test Facility will exhibit at the Interspill 2015 Conference, www.interspill.com, to be held at the RAI Convention Center in Amsterdam, The Netherlands March 24-26, 2015.

Featuring more than 90 companies from 70+ countries, the Interspill Conference will focus on the changing landscape of Spill Preparedness and Response as Exploration and Production and shipping activities continue to move into more challenging environments.

During the conference sessions, Tim Steffek of the U.S. Department of Interior's Bureau of Safety and Environmental Enforcement (BSEE) will present *Comparative Testing of Four Dispersants at Ohmsett in a Simulated Arctic Environment*. Mr. Steffek will discuss the independent dispersant effectiveness test program conducted at Ohmsett during the winter of 2014 to better understand the effectiveness of various dispersants and the comparative study.

Interspill supports the networking that the industry depends on to deal with spill events by providing international experts and leaders from the spill industry the opportunity to exhibit and discuss spill preparedness, response issues and technologies. Ohmsett's exhibit on the conference floor, Booth (Stand) #A11, will showcase the latest skimmer testing, full-scale dispersant effectiveness testing and research conducted at its facility. ###

Ohmsett, The National Oil Spill Response Research & Renewable Energy Test Facility, is one of the largest outdoor saltwater wave/tow tanks in North America and is designed to evaluate the performance of full-scale and meso-scale equipment under realistic but safe environmental conditions. The facility, managed by the Bureau of Safety and Environmental Enforcement (BSEE) and operated by MAR, Incorporated, is located at the Naval Weapons Station Earle Waterfront in Leonardo, New Jersey.
